

Pazzles Software is more than a simple tool for cutting & creation. This unique software includes many professional tools for image manipulation.

Export & import files extensions AI, EPS, BMP, JPG ... Compatible with files created with Corel Draw, Adobe, Illustrator & others softwares.

Vectors manipulations tools create curves, béziers, circles, squares, rectangles, texts and colors.

Includes a free multi-media training CD for a fast and easy learning.

PROGRAM FEATURES	
Auto Prefeed	
Kiss cutting - stitch mark or perforation mark	
Engraving options,Filled, and Fonts	
Logos ready to cut and print	250
Italic and Rotation in visual mode	
Copy properties	
Multiply copies.(circulars, lines, etc)	
Cut shape with a straight segment	
Cut & Print all TrueType and Adobe fonts	
Visual text spacing	
Simple interface to write any text on path and circle	
Separate text in characters, word, line and outline	
Antialiasing display of True Type fonts	
Replacement of non-available fonts	
Top quality cutting fonts	30
Edit and draw nodes of béziers, segments, arcs	
Distortions, Outline, Contour with welding, Shadow,Gradient	
Draw arrows, stars, polygons, ellipses, circles, rectangles	
Design center; Outlines, Shadows, Perspectives and 3D Rotation	
Cutters drivers installed	
Cutting by colors and objects	
Automatic sort objects by color (Front, back, etc)	
Choice of 5 cutting and printer register marks	
Multiple weeding contours	
Verification of alinement of the cutters	
Zoom details in the cutting panel	
Convert object to image (BMP/JPG)	
Change resolution and color of the image (bits,dithering,etc)	
Import / Export Bmp, Jpg,Tiff, Eps, Pcx, Wmf, Wpc, Vip	
Import vector files Eps, Ai, Dxf, Prn, Plt. Wpc, Vip, etc	
Color scanning & black/white.	
Improved automatic Black & White vectorization	
Improved color conversion to black and white	
Manual vectorization	
Automatic clean up of vectorizing path	
Dimension-lines (see and print measurements)	
Customer folder (jobs, notes, etc)	
Transparent group	
Lines guides simple and magnetic	
WYSIWYG pasting,text layout	
Cut,Copy and Paste text,object and image	
CD-Rom multimédia training	
Convert a segment to béziers, in Arc and Bézier with a click	
See opened path (unsnap)	
See direction path	
Automatic numbers production	
Magic Ruler (real images measurement)	
Contour Cut - automatic trace of outer contour of color or black and white graphic
